

SHRED.

SNOW 2026 - 2027
PERFORMANCE ENHANCING EYEWEAR,
HELMETS, AND PROTECTION

"I needed better products so I could take my performance to a higher level, and I needed them to look as good as they performed. In 2006, we launched SHRED. and created our own performance enhancing goggle and protection technologies for skiers, snowboarders, and mountain bikers. Today our commitment to innovation is stronger than ever and we keep pioneering revolutionary technology that boosts confidence, enhances performance, helps you have more fun on the mountain, and unlocks your inner pro. We have emerged as a market leader, building the products of our dreams that contributed to 15 Olympics medals and collected thousands of five star reviews from our customers while proudly maintaining our underdog status. Come SHRED. with us."

**Ted Ligety | 2x Olympic Gold Medalist
| 5x World Champion | SHRED. Co-
founder, Chairman, and Chief Brand
Officer.**

A scenic photograph of a snow-covered mountain range under a twilight sky. The mountains are partially covered in snow, with some rocky outcrops visible. A thin crescent moon is visible in the upper right portion of the sky. The overall color palette is cool, with blues, greys, and whites, accented by the warm tones of the setting or rising sun on the mountain slopes.

Built for **skiers, snowboarders, and mountain bikers** seeking to boost their confidence and master the mountains. **SHRED.'s revolutionary eyewear and protection enhances your performance to unlock your inner pro and maximize your fun. #ComeSHREDwithUs**

WE ARE INNOVATORS

In 17 years we amassed an amount of innovation that is unique in our space. Technology developed to deliver performance that matters.

2006

2011

2012-2015

2016

2020

2022

◻ LINEAR IMPACT PROTECTION

● ROTATIONAL IMPACT PROTECTION

SHRED. RESPONSIBLE INNOVATION

In 2021, we introduced goggle straps made with 80 percent of their weight from recycled PET plastic bottles—an industry first that debuted at the Beijing 2022 Olympics. Today, these straps come standard across all SHRED. goggles, proving that performance and responsibility can move forward together.

Our commitment extends to every touchpoint. In 2020, we eliminated plastic from all goggle and helmet packaging, leading the industry toward better practices. By 2023, we pushed further by joining the Responsible Packaging Movement and transitioning to FSC-certified paper, ensuring even the unboxing reflects our drive to innovate.

If you are looking for the ultimate ski and snowboard goggle to DEFEAT FLAT LIGHT with a sharp, minimal aesthetic and an oversized field of view, SHRED. Codify is your choice. Its near-frameless design delivers a bold, modern look while maximizing visibility. The CONTRAST BOOSTING LENS™ 2.0 (CBL 2.0) technology defeats flat light and boosts performance in all weather and light conditions. Paired with NODISTORTION™, you get crisp, undistorted clarity at every altitude. The SHRED.wide™ architecture expands your field of vision so you see more of the mountain and react sooner. And with the 1-2-3 SHRED REPLACEMENT SYSTEM™, swapping lenses is fast and intuitive. Codify is also OTG compatible, fitting comfortably over most prescription glasses. Codify is built for riders who want cutting-edge vision and a clean, modern frame that lets performance speak for itself.

FEATURES:

SHRED. CONTRAST BOOSTING LENS™ 2.0 | Our proprietary, MIT-developed, ALL CONDITIONS Lens Tech System DEFEATS FLAT LIGHT, boosts contrast in low/flat light, and reduces glare in brightness. Choose from: ICE to DEFEAT FLAT LIGHT and enhance vision performance in ALL CONDITIONS, GLACIER to DEFEAT GLARE in Late Spring/Summer, NIGHTTIME to DEFEAT DARKNESS in Night/Artificial Light.

*Select models only. Others feature original CBL™ for enhanced contrast and clarity.

SHRED.wide™ | Goggles designed and engineered to maximize your field of view.

SHRED. NODISTORTION™ | Pressure regulation valve technology to provide crystal clear vision during altitude change..

SHRED. OTG | Designed to provide compatibility and comfort with prescription glasses.

SHRED. NOCLOG™ | Hydrophobic treatment on vents to reduce clogging from snow or water and help prevent fogging.

TECH SPECS:

LENS | Ultra-high-optical-precision molded, cylindrical double lenses with tapered thickness to optimize vision at all angles and enhance impact protection. | 100% UVA-UVB-UVC protection | Super Anti-Fog

FRAME | Width: 190 mm | Height: 100 mm

STRAP | Width: 50 mm | Approx. 80% R-PET fibers from recycled plastic bottles | Triple silicone line backing | 2-point slide adjustment system

WEIGHT | 175 g

FITS BEST | M to L helmet size

IN THE BOX:

1 pair of SHRED. Codify goggles | 1 SHRED. goggle soft case
SHRED. goggles packaging is 100% plastic free

VLT% IMPORTANT NOTICE | VLT% doesn't fully capture the human eye's experience with SHRED. Contrast Boosting Lens™ 2.0 Technologies. Unlike the human eye, it misses how the lens's polarization filter cuts glare and how the contrast enhancing formulations boost clarity and vision.

Are you searching for the best performing ski and snowboard goggle that defeats FLAT LIGHT while providing the widest field of vision in the game and a distinctive, sleek, and frameless cylindrical lens style? If so, SHRED. Gratify is your best choice. It offers superior fit and comfort and features our revolutionary CONTRAST BOOSTING LENS™ 2.0 (CBL 2.0)* technology to DEFEAT FLAT LIGHT and greatly enhance vision performance in ALL weather and light conditions. Combined with NODISTORTION™ technology, it maintains perfect image clarity and eliminates optical distortion at all altitudes. The SHRED.wide™ design ensures a maximized field of view, allowing you to see more of the mountain and its terrain. Boost your confidence and performance for endless fun up and down the mountains. SHRED. Gratify is compatible with most prescription glasses (OTG).

*Available in select models. Other models feature our original Contrast Boosting Lens™ (CBL), designed to enhance contrast and image definition compared with traditional lenses.

FEATURES:

SHRED

If you're looking for the widest field of vision ever engineered in a ski and snowboard goggle that offers a smaller or universal fit—while also providing unrivaled comfort, a very clean and almost frameless design, seamless compatibility with any helmet, and a lens that defeats flat light—then the SHRED Exemplify is the goggle for you. The Exemplify features our revolutionary CONTRAST BOOSTING LENS™ 2.0 (CBL 2.0)* technology to DEFEAT FLAT LIGHT and greatly enhance vision performance in ALL weather and light conditions. Combined with NODISTORTION™ technology, it maintains perfect image clarity and eliminates optical distortion at all altitudes. The SHRED.wide™ design maximizes the field of view, boosting your confidence, performance, style, and fun. The SHRED Exemplify is compatible with most prescription glasses (OTG).

*Available in select models. Other models feature our original Contrast Boosting Lens™ (CBL), designed to enhance contrast and image definition compared with traditional lenses.

FEATURES:

SHRED. CONTRAST BOOSTING LENS™ 2.0 | Our proprietary, MIT-developed, ALL CONDITIONS Lens Tech System DEFEATS FLAT LIGHT, boosts contrast in low/flat light, and reduces glare in brightness. Choose from: ICE to DEFEAT FLAT LIGHT and enhance vision performance in ALL CONDITIONS, GLACIER to DEFEAT GLARE in Late Spring/Summer, NIGHTTIME to DEFEAT DARKNESS in Night/Artificial Light.

*Select models only. Others feature original CBL™ for enhanced contrast and clarity.

SHRED.wide™ | Goggles designed and engineered to maximize your field of view.

SHRED. NODISTORTION™ | Pressure regulation valve technology to provide crystal clear vision during altitude change..

SHRED. OTG | Designed to provide compatibility and comfort with prescription glasses.

SHRED. NOCLOG™ | Hydrophobic treatment on vents to reduce clogging from snow or water and help prevent fogging.

VLT% IMPORTANT NOTICE | VLT% doesn't fully capture the human eye's experience with SHRED Contrast Boosting Lens™ 2.0 Technologies. Unlike the human eye, it misses how the lens's polarization filter cuts glare and how the contrast enhancing formulations boost clarity and vision.

TECH SPECS:

HELMETS TECHNOLOGY

SMART IMPACT PROTECTION

Powered by SHRED's Rotational Energy System™ and SLYTECH® Shock Absorption.

To boost your confidence and fun, SHRED's Smart Impact Protection System™ effectively combats both rotational and linear forces. Simply put, this reduces harmful forces transmitted to your brain. SHRED's Rotational Energy System™ offers the lightest and thinnest solution for addressing rotational forces while SLYTECH® Shock Absorption maximizes the helmet's ability to dissipate linear impact energy. Unleash your potential with SHRED's Smart Impact Protection System.™

NOTION NOSHOCK HELMET BY SHRED.

ENHANCED WITH
**SLYTECH® SHOCK
ABSORPTION BY SHRED.**

- ☑ Protection from linear impacts

VENTILATION

- ☑ 3 Positions
- ☑ Top | Back | Sides
- ☑ Single Switch

**SHRED. ROTATIONAL
ENERGY SYSTEM™**

- ☑ Protection from rotational forces

SHRED. HEXAFLOW™

- ☑ Enhances linear absorption
- ☑ Maximizes ventilation

RECCO®

- ☑ Avalanche reflector

XT2

- ☑ Odor protection

FIDLOCK®

- ☑ Magnetic closure

The Notion NoShock: a game-changer in the all-mountain and freeride helmet category. Hailed for its **extreme comfort** and **comprehensive protection**, this helmet is redefining standards by **checking all the boxes**. It's not just about protection; it's about embracing the mountain with confidence and style.

NOTION NOSHOCK

If you're a skier or snowboarder searching for a premium helmet that boosts your confidence by offering unrivaled technology to absorb both rotational and linear energy—while also striking the perfect balance between being lightweight and durable—look no further than the Notion NoShock. Equipped with SHRED's SMART IMPACT PROTECTION SYSTEM™, this new flagship helmet pairs SHRED's ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—with the helmet's integrated honeycomb-cone-structured SLYTECH® SHOCK ABSORPTION to create an unparalleled synergy for combating linear and multi-directional forces. Its hybrid construction combines the durability of a hard shell upper with the weight savings of an in-molded lower shell and sidewalls. A unique 3-position switch allows you to control the top, back, and side vents simultaneously. A passive RECCO reflector further enhances your safety while the helmet's Fidlock magnetic closure offers security and convenience. The Notion NoShock boosts your confidence, allowing you to charge harder and amplify your fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

SLYTECH® SHOCK ABSORPTION | SHRED.'s patented solution to increase linear impact energy dissipation. It integrates a slow memory honeycomb cone structure into the helmet's EPS impact absorption element.

XT2® | Anti-microbial technology to provide permanent odor protection.

VENTILATION | 3-position switch controls top, back and side vents simultaneously.

RECCO® | Integrated reflector with passive technology that enables rescue professionals to search for you in the event of an avalanche or if lost outdoors.

FIDLOCK® | Magnetic closure to enhance convenience, security, and efficiency.

HEXAFLOW™ | Three-dimensional EPS with channels to enhance linear impact absorption and maximize ventilation.

TECH SPECS:

NOTION

If you're a skier or snowboarder looking for a helmet to boost your confidence, the Notion is your perfect match. This premium helmet is designed to prioritize lightweight protection and all-day comfort. Featuring a hybrid shell, it combines a tough upper for durability with a lightweight lower for effortless wear. The Notion is equipped with SHRED's Rotational Energy System™ (RES)—the lightest, thinnest solution for managing rotational forces—and HEXAFLOW™ technology, a 3D EPS structure that enhances linear impact absorption while maximizing ventilation. Its easy-to-use 3-position airflow switch lets you adjust ventilation on the fly, keeping you cool and focused, whether carving groomers or exploring off-piste. The Notion delivers Confidence, Comfort, and Control so you can push your limits and amplify your fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

VENTILATION | 3-position switch controls top, back and side vents simultaneously.

HEXAFLOW™ | Three-dimensional EPS with channels to enhance linear impact absorption and maximize ventilation.

TECH SPECS:

CONSTRUCTION | Hybrid | 16 vents

SAFETY STANDARDS | EN1077B (Europe snow) | ASTM F2040 (USA snow)

MATERIAL | PC | SHRED. Shield toughened ABS | Super Light EPS

WEIGHT | 495 g [Size S]

IN THE BOX:

1 SHRED. Notion helmet | 1 SHRED. soft helmet bag

SHRED. helmets packaging is 100% plastic free

Are you searching for a lightweight yet extremely durable hard shell ski and snowboard helmet that offers a superior fit and comfort and features unrivaled technology to address both rotational and linear energy absorption? Then the Totality NoShock is the perfect choice. Its SMART IMPACT PROTECTION SYSTEM™ pairs SHRED's ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—with the helmet's integrated honeycomb-cone-structured SLYTECH® SHOCK ABSORPTION to create an unparalleled synergy for combating linear and multi-directional forces. The Totality NoShock gives you the confidence you need to reach the next level, feel like a pro, and have fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

SLYTECH® SHOCK ABSORPTION | SHRED's patented solution to increase linear impact energy dissipation. It integrates a slow memory honeycomb cone structure into the helmet's EPS impact absorption element.

XT2® | Anti-microbial technology to provide permanent odor protection.

VENTILATION | Strategic vent system to channel warm air from the goggles and the front of the helmet to its back, preventing goggles from fogging and the head from sweating.

SL CHIN GUARD | Fully compatible with SHRED. Soft-Ear Chin Guards. See page 49 for details.

TECH SPECS:

TOTALITY

Are you searching for a lightweight ski and snowboard helmet that addresses rotational energy absorption while also providing an unrivaled fit and style? Then look no further than the SHRED. Totality. Thanks to its ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—and a ventilation system that maximizes vision and comfort by using 12 vents to pull warm air from your goggles and helmet, the Totality provides the performance, safety, confidence, and style you need to feel like a pro and have fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

VENTILATION | Strategic vent system to channel warm air from the goggles and the front of the helmet to its back, preventing goggles from fogging and the head from sweating.

Are you a ski racer searching for the best-performing FIS-certified helmet that not only has the lowest profile, fits great, and looks amazing, but is also lightweight and offers unrivaled technology to address both rotational and linear energy absorption? Then the SHRED. Basher Ultimate is the perfect choice. Its **ROTATIONAL ENERGY SYSTEM™ (RES)**—which is the lightest and thinnest solution for addressing rotational forces—is paired with **Casidion™**—a nanotechnology-based impact liner that’s thinner and lighter than those used in other racing helmets—to create an unparalleled synergy for combating linear and multi-directional forces. Charge with confidence and boost your performance, style, and fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

CASIDION™ | Revolutionary nanotech foam that goes beyond the performance of traditional materials. This absorption element offers protection even in the case of repeated impacts and provides an extraordinarily high impact absorption efficiency, allowing it to be thinner and lighter than other commonly used components.

XT2® | Anti-microbial technology to provide permanent odor protection.

FIS RH 2013 | Certified according to FIS RH 2013 ski racing helmet safety standards.

CUSTOM FIT KIT | An additional set of thicker pads and ear pieces to fine tune the helmet’s fit.

SL CHIN GUARD | Fully compatible with SHRED. Hard-Ear Chin Guards. See page 49 for details.

If you're a ski racer searching for an FIS certified helmet that offers the best performance and style and features unrivaled technology to address rotational energy absorption, then look no further than the SHRED. Basher. Its ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—is paired with the helmet's Impact Recovery Liner to create an exceptional synergy for combating linear and multi-directional forces. Thanks to the SHRED. Basher, you can charge with confidence and elevate your performance.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

IMPACT RECOVERY LINER | Tough and durable EPP absorption element to provide superior protection during multiple impacts within a single accident.

FIS RH 2013 | Certified according to FIS RH 2013 ski racing helmet safety standards.

CUSTOM FIT KIT | An additional set of thicker pads and ear pieces to fine tune the helmet's fit.

SHRED ■ 2ND SKIN™ BACK PROTECTOR LINE
Technology Developed with MIT

2ND SKIN BACK PROTECTOR HEAVY DUTY

For those who demand the highest level of protection without compromising on comfort, the SHRED. 2ND SKIN Back Protector Heavy Duty is the ultimate choice. Engineered with our redefined Slytech® 2ND SKIN™ material, it provides advanced impact absorption while meeting the rigorous Level 2 safety standard. The innovative HexaFlow™ 3D hexagonal structure ensures unmatched flexibility, ventilation, and a lightweight feel, allowing you to push your limits with confidence. Designed for skiers and snowboarders who won't settle for less, the SHRED. Back Protector Heavy Duty Naked keeps you protected, comfortable, and ready to conquer every run.

FEATURES

SLYTECH® 2ND SKIN™ | Engineered to feel like a natural extension of your body, it offers unmatched comfort and flexibility without compromising protection. Soft and pliable as you ride, it hardens instantly upon impact to shield you from even the harshest crashes. With SLYTECH® 2ND SKIN™, experience the pinnacle of innovation where protection and comfort become one.

SLYTECH® HexaFlow™ | Advanced 3D hexagonal structure that significantly enhances the performance, comfort, and protection of our proprietary SLYTECH® 2ND SKIN™ technology by reducing weight, increasing flexibility, and optimizing ventilation.

Are you a skier or snowboarder searching for lower body protection with such a low profile you can forget you're wearing it until you truly need it? The SHRED. Protective Shorts are the perfect choice. Their honeycomb-cone-structured SLYTECH® SHOCK ABSORPTION is specifically developed for lower body protection and provides the highest impact energy absorption performance while their Super-stretch Nylon fabric adapts to every move you make. If you're wearing the shorts with a back protector, you can also remove their lower back and coccyx pads to maximize comfort. Get uncompromised protection and comfort to reach the next level and have fun.

FEATURES

SLYTECH® SHOCK ABSORPTION | Built for those who value dependable protection and everyday comfort. It adapts intelligently to your movements—soft and flexible during use, yet hardening to absorb impact when you need it most. Lightweight and reliable, SLYTECH® SHOCK ABSORPTION lets you ride with confidence.

SLYTECH® NOSHOCK | Patent-pending honeycomb cone structure that further increases the performance, safety, and comfort of our proprietary SLYTECH® Shock Absorption by reducing weight and promoting ventilation.

TECH SPECS:

CONSTRUCTION | SLYTECH® Shock Absorption with NOSHOCK honeycomb cone structure | Super Stretch Nylon fabric

SAFETY STANDARDS | Conforms to EU 2016/425 Personal Protective Equipment standard, category 1

MATERIAL | SLYTECH® Shock Absorption | Nylon fabric

IN THE BOX:

1 SHRED. Protective Shorts

If you are a ski racer looking for reliable upper-body protection with unconstrained movement and a low-profile design, the SHRED. Ski Race Custom Protective Jackets are built for you. Our SLYTECH® SHOCK ABSORPTION RACE - Cold Impact Formulation adapts to different forces and impact speeds, delivering dependable protection from gate impacts on the forearms, shoulders, and shoulder blades—even in the coldest conditions. The added shoulder-blade pads guard against gate whiplash, giving racers crucial coverage through every turn. The super-stretchy spandex fabric moves with your body to maintain a natural, unrestricted feel, while the removable forearm and shoulder pads allow for easy washing and personalized setup. A front zipper ensures quick on-and-off access. Feel the confidence to push harder and perform like a pro with the SHRED. Ski Race Custom Protective Jackets.

FEATURES

SLYTECH® SHOCK ABSORPTION RACE | Built for those who value dependable protection and everyday comfort. It adapts intelligently to your movements—soft and flexible during use, yet hardening to absorb impact when you need it most. ALL MTN PROTECTIVE GLOVES PRO

Are you searching for premium leather gloves or mittens that not only keep you warm and dry but also protect you from hard snow, branches, and rocks? Then look no further than the ALL MTN Protective Gloves Pro and Mittens Pro. Their SLYTECH® SHOCK ABSORPTION offers unrivaled impact energy absorption around your knuckles, thumbs, fingers, and the backs of your hand while PRIMALOFT® insulation provides exceptional warmth. SUPERFABRIC® inserts on the back of the fingers and hand maximize durability. To enhance comfort and performance, they feature a nose wipe and GRIP CONTROL on the palm. Whether lapping groomers, exploring the backcountry, sessioning the park, or bashing gates, the ALL MTN Protective Gloves Pro and Mittens Pro elevate your performance and amplify your fun.

FEATURES:

SLYTECH® SHOCK ABSORPTION | Built for those who value dependable protection and everyday comfort. It adapts intelligently to your movements—soft and flexible during use, yet hardening to absorb impact when you need it most. Lightweight and reliable, SLYTECH® SHOCK ABSORPTION lets you ride with confidence.

PRIMALOFT® Insulation | Ultra-fine microfiber insulation that is warm, soft, and lightweight.

THUMB PROTECTION | Strategically placed SLYTECH® Shock Absorption pads to protect against skier's thumb.

SUPERFABRIC® | SuperFabric armor plates for unrivaled durability and abrasion resistance.

TACKY GRIP™ | Specially formulated leather to provide unparalleled grip on poles.

CARBON SHIN GUARDS

If you're a ski racer looking for unrivaled performance when you clear slalom gates, SHRED. Carbon Shin Guards are the perfect choice. Their SLYTECH® SHIELD CARBON advanced composite material provides exceptional protection and features ADVANCED GATE GLIDE technology to minimize friction. And to stay in place, they sport SHRED. GRIP PADS. With their unparalleled shin protection and gate clearing speed, the SHRED. Carbon Shin Guards provide the confidence you need to focus on your skiing and feel like a pro.

FEATURES:

SLYTECH® SHIELD CARBON | A high performance material blend that combines carbon fiber technology and our SLYTECH® SHIELD CARBON material to create shells that are extraordinarily durable yet lightweight and that provide the best performance at all temperatures.

ADVANCED GATE GLIDE™ | NOFRICTION+ technology integrates a friction-reducing additive into the SLYTECH® SHIELD CARBON composite material. This acts as a lubricant, minimizing friction and drag between the guard and gates to boost speed.

BELUSHKI

If you love the outdoors and need sunglasses to pursue your passion – with plenty of style – look no further than the SHRED. Belushki. Armed with a timeless design, it features flatter lenses with a base six curve. Made of liquid-cast urethane, these lenses showcase SHRED’s CONTRAST BOOSTING LENS™ (CBL) technology to enhance contrast, image definition, and the vividness of colors – no matter the terrain or conditions. The Belushki also features a featherlight NOWEIGHT™ frame and strategically-positioned rubber pads ensure it stays in place. The Belushki gives you the confidence, performance, and style you need to elevate your game and amplify your fun.

FEATURES:

SHRED. CONTRAST BOOSTING LENS™ | Enhances contrast and definition for all weather, surface, and light conditions.

SHRED. NOWEIGHT™ | Especially light, thin, and flexible, this frame design reduces the material used in interior areas subject to minimal stress and reinforces target areas for maximum durability. This creates tremendous strength without compromising the clean, streamlined appearance of the frame’s exterior.

SHRED. POLARIZED | Polarizing filters of the highest quality enhance our lenses and reduce glare by blocking all angles of light that are scattered and reflected from surfaces such as water, snow, and ice.

SHRED. NOSLIP™ | Specially formulated rubber pads on the nose and temple tips to further enhance comfort and ensure the frames stay in place while you’re in motion.

TECH SPECS:

LENS | Liquid-cast urethane lenses provide exceptional optical precision and impact protection | Base 6 lens provides a flatter look | 100% UVA-UVB-UVC protection | Lens width: 50.1 mm / 1.97 in | Lens height: 42.3 mm / 1.66 in

SIZE | Frame width: 135 mm / 5.31 in | Temple length: 137 mm / 5.41 in | Nose bridge width: 19.8 mm / 0.78 in

IN THE BOX:

1 pair of SHRED. Belushki sunglasses | 1 SHRED. sunglasses case | 1 SHRED. soft sunglasses bag

STOMP

If your life revolves around the outdoors and you need sunglasses that offer exceptional clarity and contrast, the SHRED. Stomp is just what you need—no matter the adventure. Its liquid-cast urethane lenses showcase SHRED.'s CONTRAST BOOSTING LENS™ (CBL) technology to enhance contrast, image definition, and the vividness of colors. With a base six curve, these lenses provide the featherlight NOWEIGHT™ frame with a flatter appearance. Strategically-positioned rubber pads also ensure the frames stay in place while you're in motion. By infusing a classic design with unrivaled performance, the Stomp boosts your confidence, style, and fun.

FEATURES:

SHRED. NOWEIGHT™ | Especially light, thin, and flexible, this frame design reduces the material used in interior areas subject to minimal stress and reinforces target areas for maximum durability. This creates tremendous strength without compromising the clean, streamlined appearance of the frame's exterior.

SHRED. CONTRAST BOOSTING LENS™ | Enhances image contrast and definition for all weather, surface, and light conditions.

SHRED. POLARIZED | Polarizing filters of the highest quality enhance our lenses and reduce glare by blocking all angles of light that are scattered and reflected from surfaces such as water, snow, and ice.

SHRED. NOSLIP™ | Specially formulated rubber pads on the nose and temple tips to further enhance comfort and ensure the frames stay in place while you're in motion.

PROVOCATOR

If your life revolves around the outdoors and you need sunglasses that offer exceptional clarity and contrast in a design that wraps around your face for additional protection, look no further than the SHRED. Provocator. Its liquid-cast urethane lenses showcase CONTRAST BOOSTING LENS™ (CBL) technology to enhance contrast, image definition, and the vividness of colors. The Provocator features lenses with a base eight curve and a featherlight NOWEIGHT™ frame with a wraparound design for additional protection. Strategically-positioned rubber pads also ensure the frames stay in place. Boost your confidence, performance, and style with the SHRED. Provocator.

FEATURES:

SHRED. NOWEIGHT™ | Especially light, thin, and flexible, this frame design reduces the material used in interior areas subject to minimal stress and reinforces target areas for maximum durability. This creates tremendous strength without compromising the clean, streamlined appearance of the frame's exterior.

SHRED. PHOTOCROMIC | Photochromic dye technology allows our lenses to automatically adjust to changing light conditions, altering their tint to improve vision and performance. This allows you to transition from darkness to light and back instantly without compromising terrain definition. *Available in select models.

SHRED. CONTRAST BOOSTING LENS™ | Enhances image contrast and definition for all weather, surface, and light conditions.

SHRED. POLARIZED | Polarizing filters of the highest quality enhance our lenses and reduce glare by blocking all angles of light that are scattered and reflected from surfaces such as water, snow, and ice.

SHRED. NOSLIP™ | Specially formulated rubber pads on the nose and temple tips to further enhance comfort and ensure the frames stay in place while you're in motion.

MOXIE

If you love the outdoors and are searching for sunglasses that pair exceptional clarity and contrast in a semi frameless design that enhances peripheral vision, look no further than the SHRED. Moxie. Its liquid-cast urethane lenses showcase CONTRAST BOOSTING LENS™ (CBL) technology to enhance contrast, image definition, and the vividness of colors. The Moxie features lenses with a base eight curve and a featherlight NOWEIGHT™ frame with enhanced wide angle lens coverage. Strategically-positioned rubber pads also ensure the frames stay in place. Boost your confidence, performance, and style with the SHRED. Moxie.

FEATURES:

SHRED. NOWEIGHT™ | Especially light, thin, and flexible, this frame design reduces the material used in interior areas subject to minimal stress and reinforces target areas for maximum durability. This creates tremendous strength without compromising the clean, streamlined appearance of the frame's exterior.
